

1 **SECTION 3-01, PRODUCTION FROM QUARRY AND PIT SITES**
2 **August 7, 2006**

3 **3-01.4(1) Acquisition and Development**

4 The first paragraph is revised to read:

5
6 If, under the terms of the Contract, the Contractor is required to provide a source of
7 materials, or if the Contractor elects to use materials from sources other than those
8 provided by the Contracting Agency, the Contractor shall, at no expense to the
9 Contracting Agency, make all necessary arrangements for obtaining the material and
10 shall ensure the quantity of suitable material is available. Preliminary samples shall be
11 taken by or in the presence of the Engineer or a designated representative unless the
12 Engineer permits otherwise. Approval of the source does not relieve the Contractor
13 from meeting these specification requirements, nor does it guarantee that the material
14 will meet these requirements without additional or proper processing. The Engineer
15 may require additional preliminary samples at any time.
